

MARIAM ALAMASI

Web Developer

merriamamsi@gmail.com | +97259-869-5954 | github.com/mrim-amsi

PROFESSIONAL SUMMARY

Professional Web Developer with strong experience building modern, scalable, and high-performance web applications. Focused on clean, maintainable code, responsive UI implementation, and reliable delivery within Agile teams. Skilled at translating UI/UX designs into pixel-perfect interfaces, integrating APIs, and optimizing performance.

SKILLS & TECHNOLOGIES

Frameworks: Laravel (PHP) & React.js • Asp.Net Core & Angular

Database: SQL • REST API Integration

Tools: Git • GitHub • Agile • Scrum • Code Review • Debugging • Performance Tuning

Additional: WordPress • WooCommerce • SEO • Content Writing

PROFESSIONAL EXPERIENCE

Web Developer — Mousa Group (Until 05/2026)

- Developed and enhanced a modern real estate web platform using React.js and responsive design principles
- Redesigned the Hero section, property cards, filters, and UI components to improve user experience and visual consistency.
- Built reusable React components for scalable and maintainable front-end architecture.
- Optimized mobile responsiveness by redesigning the filtering system into a horizontal, mobile-friendly interface.
- Collaborated with stakeholders to implement iterative improvements based on project requirements and client feedback.
- Improved website performance, accessibility, and maintainability through clean coding practices and Git-based version control
- Worked closely with designers and developers to deliver high-quality, production-ready features within Agile workflows

Web Developer — Developers Plus, Gaza (Until 01/2024)

- Developed and maintained web applications with reusable, scalable UI components.
- Integrated RESTful APIs and implemented dynamic data rendering.
- Collaborated with designers to deliver pixel-perfect UI/UX implementations.
- Improved maintainability via clean code practices and code reviews.
- Worked within Agile sprints, contributing to planning and delivery.

Web Developer — Medist Group, Gaza (May 2022)

- Contributed to front-end development and UI integration for web solutions.
- Ensured smooth interaction between front-end interfaces and back-end services.
- Supported client-side security best practices and quality improvements.

Freelance Web Developer (2020 – 2021)

- Delivered custom websites for 14+ clients, focusing on responsive design and performance.
- Customized WordPress themes and enhanced front-end functionality.
- Managed end-to-end client communication and delivery.
